

Sample Informal Letter: Wishing a Friend Quick Recovery After Surgery

Date: [Insert Date]

Dear [Friend's Name],

I just heard about your surgery, and I wanted to check in and let you know that you're on my mind. I hope you're taking it easy and giving yourself time to heal. I can only imagine how tough these past few days have been for you.

You've always been so strong and upbeat, and I know you'll bounce back from this in no time. Remember, you're not alone-if you need anything at all, whether it's a chat, some company, or just someone to complain to about hospital food, I'm here for you.

Sending lots of good vibes your way for a smooth and speedy recovery. Take all the rest you need, and don't rush things-your health comes first! Can't wait to see you up and about again, causing your usual mischief.

Get well soon, my friend. Miss you and wishing you all the best as you heal.

With lots of care,
[Your Name]
