

Informal Letter Sample for a Teacher Requesting Advice

Below is an example of how to write an informal letter to your teacher requesting advice:

Dear Mrs. Johnson,

I hope you are doing well. I wanted to write to you because I am feeling a bit unsure about how to prepare for the upcoming math exam. I have been revising the chapters, but I still find some parts of algebra confusing, especially the word problems.

Could you please suggest the best ways to practice and understand these topics better? If you have any tips or resources that you think might help, I would really appreciate your advice.

Thank you so much for always being supportive. I value your guidance a lot.

Sincerely,
Alex
