

## Sample Rejection Message with Specific Feedback

Dear [Developer's Name],

Thank you for taking the time to submit your proposal for our web development project at [Company/Client Name]. We appreciate the effort you put into preparing your application and sharing your portfolio with us.

After carefully reviewing your submission, we have decided not to move forward with your application at this time. We would like to offer you some specific feedback that influenced our decision:

- **Portfolio Relevance:** Although your portfolio showcases strong technical skills, we noticed that it lacked recent examples of e-commerce platforms, which is a major focus of our project.
- **Technology Stack Experience:** Our project requires extensive experience with React.js and Node.js. Your portfolio reflects solid skills in WordPress and PHP but limited exposure to the required technologies.
- **Communication:** We experienced some delays in our initial communication, and timely collaboration is critical to our project's success.

We encourage you to consider the following suggestions to strengthen your future applications:

- Expand your portfolio with recent work examples using React.js and Node.js.
- Highlight relevant case studies or projects aligned with the client's industry.
- Maintain timely responses during the initial communication phase.

Thank you again for your interest in working with us. We truly wish you the best in your future projects and hope you will consider applying again as your experience grows.

Best regards,

[Your Name]

[Your Position/Company]
