

# Sample Rejection Letter for Manuscript Submission with Reviewer Input

Date: [Insert Date]

Dear [Author Name],

Thank you for submitting your manuscript entitled "[Manuscript Title]" to [Journal Name]. We appreciate the time and effort you invested in preparing and submitting your work for our consideration.

After a thorough evaluation by our editorial team and external peer reviewers, we regret to inform you that we will not be able to accept your manuscript for publication in our journal. This decision was made after careful consideration of the reviewers' comments and the overall fit of your work with the journal's current focus and standards.

## Reviewer feedback:

- *Reviewer 1:* Noted that your study addresses an important topic but raised concerns regarding the robustness of the methodology and the limited sample size.
- *Reviewer 2:* Suggested that the literature review requires greater depth and that several key recent studies were not referenced.
- *Reviewer 3:* Commented on the clarity of data presentation and recommended more detailed explanations in the results section.

We understand that this outcome is disappointing. We hope, however, that the comments provided by our reviewers will be helpful as you revise your manuscript for submission to another journal. We encourage you to consider their suggestions as you improve your work.

Thank you again for considering [Journal Name] for your submission. We wish you all the best with your research and future publications.

Sincerely,

[Editor's Name]
