

Date: [Insert Date]

Dear [Author Name],

Thank you for submitting your manuscript entitled "[**Manuscript Title**]" to [*Journal Name*]. After careful evaluation by our editorial team and external peer reviewers, we regret to inform you that we are unable to accept your manuscript for publication.

This decision was reached following an in-depth review process. Below, we have included detailed feedback from the peer reviewers. We hope you find these comments helpful for revising your manuscript, either for resubmission elsewhere or for the continued development of your research.

Reviewer 1 Comments:

- **Strengths:** The manuscript addresses an important topic and presents novel findings with potential impact in the field. The introduction is well-written, providing comprehensive background information.
- **Major Concern:** The methodology lacks sufficient detail, particularly regarding the sampling process and statistical analysis. Please provide more information about sample size determination and clarify the statistical tests used.
- **Minor Issues:** Figures 2 and 3 lack legends and are not adequately referenced in the main text. Minor language edits are recommended throughout the discussion section.

Reviewer 2 Comments:

- **Study Design:** The study hypothesis is interesting, but the current design has limitations. Consider including additional controls to strengthen your conclusions.
- **Data Interpretation:** Some of the conclusions are overstated, given the data presented. Please revisit the discussion and ensure that claims are directly supported by results.
- **References:** Several recent publications relevant to your topic were not cited. Please update your references to reflect the latest research.

Reviewer 3 Comments:

- **Clarity:** Sections 2.2 and 3.1 are difficult to follow due to lengthy sentences and unclear phrasing. We recommend revising these sections for clarity.
- **Ethical Approval:** Please state whether ethical approval was obtained for this study and provide the corresponding reference number.
- **Figures/Tables:** Some table values do not match those stated in the text; please cross-check all data for consistency.

We appreciate the opportunity to have assessed your work and thank you for considering [*Journal Name*] for your submission. We hope the above feedback is helpful as you prepare your manuscript for submission to another journal. Please do not hesitate to contact us if you have questions regarding the reviewer comments.

We wish you every success with your research.

Sincerely,
[Editor Name]
