

Sample Informal Letter Asking Classmate for Help in Studies

15 Green Street
Springfield
June 10, 2024

Dear Rahul,

I hope this letter finds you well. How are you doing? I wanted to write to you because I have been having some difficulty understanding a few topics in Mathematics, especially Algebra and Geometry. I know you grasp these subjects really well, and I admire your problem-solving skills.

Would you be able to help me out with these topics? Maybe we could study together after school or during the weekend, whichever works for you. I believe your guidance will really help me clear my doubts and improve my grades.

Thank you so much in advance for your help! Looking forward to your reply.

Your friend,
Amit
