Dear [Author Name],

Thank you for submitting your manuscript entitled "[**Manuscript Title**]" to [**Journal Name**]. We appreciate the time and effort you have invested in your research and in sharing it with us.

After careful consideration, we regret to inform you that we are unable to accept your manuscript for publication in our journal. The primary reason for this decision is that the subject matter of your submission does not align sufficiently with the established aims and scope of [**Journal Name**]. Our publication is dedicated to works that address *[briefly state journal's subject areas or themes]*, whereas your manuscript focuses on *[briefly state perceived focus]* which lies outside our thematic priorities.

We want to emphasize that this decision does not reflect the quality or value of your research. Rather, it pertains strictly to a scope mismatch. We believe your work would be more appropriately presented to a journal whose audience and focus better match your topic, thereby ensuring it receives the consideration and recognition it deserves.

We encourage you to explore other publication venues whose aims and scope are closer to your manuscript's content. Should you have future submissions that fit within the core subjects of [**Journal Name**], we would welcome the opportunity to consider your work again.

Thank you once again for considering [**Journal Name**] for your research. We wish you every success in publishing your manuscript.

Sincerely,

[Editor Name]
