Subject: Complaint Regarding Poor Garbage Collection Services

Dear Members of the City Council,

I am writing to formally express my concern regarding the **poor garbage collection services** in our community. Over the past several [weeks/months], residents, including myself, have experienced repeated issues such as frequent delays, missed pickups, and inadequate waste management practices. These ongoing problems are having a significant negative impact on both the cleanliness and hygiene of our neighborhood.

Due to irregular and inconsistent garbage collection, waste often remains uncollected for days, causing unpleasant odors, attracting pests, and posing serious health risks to the community. Furthermore, the unsightly piles of rubbish detract from the overall appearance of our area, reducing the quality of life for all residents.

We respectfully urge the City Council to take immediate and effective corrective actions. These could include reviewing the efficiency of existing waste management processes, ensuring timely collection schedules, adequately staffing collection teams, and providing proper resources to manage the waste promptly and safely. It is imperative that the council upholds public health standards and fulfills its responsibility to maintain a clean and livable environment.

We trust that you will treat this issue with urgency and look forward to improvements in garbage collection services. Thank you for your attention to this matter. We appreciate your support in addressing the concerns of the community.

Sincerely,
[Your Name]
