

Hey **Super Sis!**

Happy Birthday! 🎂🎉, I can't believe you're now so grown up that you're not just "my annoying little sister" but also someone's wife (and probably the boss at home, let's be real). But don't worry, no matter how old you get or how many titles you collect, you'll always be *my* partner-in-crime and secret-ice-cream-eater.

Remember when we used to fight over TV remotes, steal each other's clothes, and make shady deals to cover up for each other's mischief? Who knew those skills would one day help you handle marriage negotiations so smoothly? I guess all those "cetraining sessions" paid off! 🙌

I hope this year brings you all the laughter, late-night snacks, and happy moments you deserve. May your husband continue to realize how lucky he is (and occasionally regret taking you away from me on the weekends 🙄). Wishing you love, endless adventures, and the kind of happiness that you give everyone around you-because you truly are the best.

Here's to more fun, more gossip, and more crazy selfies-no matter where life takes you! Don't forget, your sibling hotline is always open for midnight rants and pizza emergencies.

Love you to the moon... and back with a pitstop for cake!

**Happy Birthday, Sis!**
