

Informal Letter Sample for College Application: Explaining Financial Need

Dear Admissions Committee,

I hope this letter finds you well. My name is Priya Patel, and I am excited to apply for the undergraduate program at your esteemed college. I am writing to share a little about my family's financial situation and why I am requesting your kind consideration for financial assistance.

My parents have always placed a high value on education, working tirelessly to support my studies as much as possible. However, my father works as a taxi driver, and my mother is a homemaker. With a limited and sometimes unpredictable income, we often focus on meeting our immediate needs, and it has been quite challenging to set aside savings for my higher education.

Despite these challenges, I am deeply committed to my academic goals. I have consistently worked hard in my studies, participated in extracurricular activities, and volunteered in my community. I am eager to continue this path at your college, where I know I can grow both personally and academically. However, the cost of tuition, books, and living expenses is more than my family can afford at this time.

Your financial assistance would make it possible for me to pursue my dream of attending college without putting an overwhelming burden on my family. I am determined to make the most of every opportunity and to contribute positively to your campus community.

Thank you very much for your understanding and consideration. I am hoping for your support so I can take the next steps towards achieving my dreams.

Sincerely,
Priya Patel
