

Sample Rejection Letter for Conference Abstract

Dear [Author Name],

Thank you for submitting your abstract entitled "[Abstract Title]" to the [Conference Name]. The review process has now been completed. After careful consideration and evaluation by our program committee and reviewers, we regret to inform you that your abstract has not been accepted for presentation at this year's conference.

We greatly appreciate the time and effort you invested in preparing your submission. Below, we have included specific reviewer feedback to help you understand the reasons behind our decision and to support you in strengthening your work for future submissions:

- **Scope:** The abstract's focus on [brief description] was considered by reviewers to be somewhat misaligned with the primary themes of our conference. We encourage you to tailor future submissions to topics that more closely fit our call for abstracts.
- **Methodology:** Reviewers noted that the methodology section lacked sufficient detail to fully assess the rigor and reproducibility of your study. Providing clear descriptions of your research methods and analytical procedures would strengthen your abstract.
- **Novelty and Impact:** While your study addresses an important issue, the reviewers felt that the findings did not present significant new insights beyond what is currently known in the field. Highlighting the unique aspects and practical implications of your work may increase its impact.

We strongly encourage you to consider the feedback provided and submit an improved version of your work to future conferences or journals.

Thank you again for your interest in [Conference Name] and for contributing to the advancement of our field. We hope to receive future submissions from you.

Sincerely,

[Conference Committee Name]

[Conference Name] Organizing Committee
