

Dear [Friend's Name],

I just heard that you're down with a fever, and I wanted to write you a quick note to let you know I'm thinking about you. I know how tough it can be to feel unwell, and I truly hope you're taking all the rest you need so you can recover soon.

Don't forget to drink plenty of fluids and take your medicines on time. Try not to stress about anything—everything can wait until you feel better! If there's anything you need or if you just want to chat to pass the time, I'm always here for you.

Get lots of sleep and remember, we all miss you! Looking forward to seeing your cheerful self back in action soon.

Take care and get well soon!

Your friend,

[Your Name]
